SAFETY PRECAUTIONS

ALWAYS Read and follow safety instructions supplied in your owner's manual
Wear safety glasses or goggles.
Wear approved hearing protection.
Ensure bystanders wear suitable protective equipment.
Disconnect tool from power (or remove battery) prior to changing or adjusting blade.
Check blade for damage, ensuring correct rotation direction.
Ensure blade diameter and bore are the correct size for the tool.
Ensure material is securely clamped before cutting.
Ensure machine guards and safety features on saw are fitted and working properly.
Ensure machine does not exceed the maximum RPM.
Allow saw to reach full speed before commencing cutting.

NEVER Wear loose clothing or jewellery. Keep clothing, body and hair clear of moving parts.
Cut materials with this blade that are not listed on the packaging.

Cranked (angled) flat chisels are ideal for removing tiles and similar products.
The angled chisel head reduces operator fatigue by allowing a more ergonomic working position.
Constructed from hard wearing tool steel for a long service life.
Easily resharpened.
SDS Max - Suits all Rotary Hammers fitted with an SDS Max chuck.
