Model	
Type	Air Conditioner
SKU	1041086
Part Number	1032T
Barcode	9332105022399
Brand	Tradequip
Dimensions	
Product Length	480 mm
Product Width	520 mm
Product Height	1035 mm
Product Weight (Net Weight)	78 kg
Packaging + Shipping	
Shipping Weight (Gross)	78.0 kg
Shipping Notes	This product is classified as 'Heavy / Oversized' and generally does not qualify for FREE SHIPPING.

**TradeQuip "Made for the Trade"** Portable Industrial Air Conditioners are designed for economical spot cooling in workshops, service rooms, warehouses and offices especially where other electrical equipment creates a heat load. These TradeQuip Portable Industrial Air Conditioners are completely self-contained and housed within an insulated cabinet. The unit's exterior is constructed of galvanised steel and protected with a tough powder-coated, polyester finish. All models are equipped standard with heavy-duty castors for easy portability. TradeQuip Portable Industrial Air Conditioners bring in air from

an outside source to cool its condenser, cycling hot air to an outside source. This provides a fresh cool air room temperature with high efficiency. Just wheel it in, plug it in and it goes to work immediately, giving high cooling capacity to wherever and at whatever point you require it.

With its compact size, this **TradeQuip "Made for the Trade"** Portable Industrial Air Conditioning unit is perfectly suited to spot cool work areas, yet still delivers an impressive amount of cooling air output.

The 1032T is the medium unit in size and capacity in the **TradeQuip "Made for the Trade"** series of portable air conditioners. The 1032T has a small foot print that is ideal for spot cooling people or equipment in a high ambient environment, like in a workshop or office space.

The **TradeQuip "Made for the Trade"** Portable Air Conditioners offer a quick cooling solution with "plug and play" technology that tops the competition with its small size, strong air flow, and easy installation. These portable air conditioners achieve up to 10°C temperature differential across its coil. This means that 39°C input air will instantly produce 29°C output air for spot cooling at a work station which will effectively cool a person and/or workshop equipment within 2-5m of the unit instantly.

The 1032T runs on a 240V/15A circuit with automatic restart after a power failure. The unit comes with a 5-Litre self-contained condensation tank, that is manually emptied. Installation takes less than ten minutes for easy set up. With the substantial 'instant' changes in the air temperature, a portable industrial air conditioner is perfect for cooling hard working people or spot cooling of rooms, workshops, factories, laundries, schools, agricultural sheds, and more.

#### Features

- Compact yet powerful
- Runs on 240V 15A circuit
- Wide operating range of 18°- 45°C
- Single duct system for easy installation
- 5 Litre self-contained condensation tank for easy removal and emptying
- Capillary tube construction for simplicity
- Heavy duty compressor with automatic restart and short cycle protection
- Motors and compressors have overload protection
- Durable and long lasting steel construction
- Heavy duty locking castors and handles for easy manoeuvrability

#### Specifications

- Cooling Capacity: 4.5KW / 15300Btu
- Power Unit: 240V 50Hz
- Rated Power: 2000W
- Rated Current: 9.0A
- Max. Air Flow: 800m<sup>3</sup> per hour
- Coverage Area: 35-40m<sup>2</sup>
- Noise Level: 60dB(A)
- Operating Temperature: 18° - 45°C
- Suction Pressure: 2.5Mpa (Max.)

Discharge Pressure: 4.5Mpa (Max.)

Speed Control: 2-speed

Refrigerant: R410/800g

Cooling Pipe: 120mm Dia

Exhaust Pipe: 200mm Dia

Condensation Tank Capacity: 8 Litres

Castor Wheels: 75mm Dia (2 with brakes)

Dimension: 1035(H) x 520(W) x 480(D)

Nett Weight: 70kg

Carton 1of2: 1110 x 610 x 570mm

Carton 2of2: 370 x 350 x 260mm

Gross Weight 78kg
