

PYROGRAPHY PEN KIT T3-54 BY IRONCORE

This pen is the Rolls Royce of pokerwork equipment as it is especially designed to remain cool. It is very comfortable, light and quick to use, it has a heat-regulating switch so there is an immense range of heat settings than can be achieved with the wire tip. Suitable for decorating, gouging, carving into Wood, Polystyrene and other materials.

Applications

Woodburning

This versatile machine is widely used for arts and crafts in schools, hospitals, rehabilitation centres and other vocational institutions. It also has many applications for the souvenir and furniture industries. One GP1 tip included.

Polystyrene

A simple tip change converts the T3/54 unit into an effective polystyrene cutting tool for lettering, gouging, polystyrene mould patterns and shaping insulation for refrigerated cabinets.

For orders of five (5) or more of the same unit, please phone us for discounted price and postage.

Optional Accessories

Nichrome Wire Tips
