Pressurized glue tank for PVA glues with 1 glue gun with adjustable glue flow and universal pointed nozzle.  
Iron tank with full inner plastic lining and chromed brass lid.

### Specification

Glue capacity 8 kg

Max pressure 5 bar

Recommended viscosity: Brookfield viscosity from 3.000 to 15.000 mPa s, at an operating temperature of 20°C/68° F.

### NOTE

This system grants accurate adhesive dosing, the right adhesive quantity, in the correct area, covering precisely just the

requested surface on any component and handwork.

The adhesive is dispensed by extrusion. Each pressurized glue tank can be fitted with 1, 2 or 3 glue guns on which it is possible to connect a wide range of standard nozzles and also custom-made ones, all interchangeable on PIZZI glue guns.

All PIZZI pressurized glue tanks can be equipped with a wide range of standard accessories and nozzles to fulfil any specific needs and glue task.

This system can be supplied without glue gun (cod. 9000) and also, with a second type of glue gun with anatomic grip (cod. 9004).

*Please note: Trolley shown pictured is sold separately.*
