Full wave electronic variable speed motor with soft start runs at 8,000-24,000 rpm and maintains constant speed under load to ensure a quality finish in all materials  
 Rack and pinion depth adjuster with micro fine adjusting allows quick and accurate set ups  
 Built in column dust extraction removes 95% of the dust  
 Spindle lock button allows one spanner cutter changes  
 Innovative rubber coated knobs have plunge lock and on/off built in for maximum user control and greater safety  
 6mm ( ¼") and 12.7mm ( ½") collet capacity provides greater versatility in cutter selection  
 1,100W motor uses state of the art circuitry for soft starts and smooth operation  
 One piece motor shaft and spindle ensures perpendicularity and accuracy  
 Phosphorous bronze bushings for the smoothest plunge and long tool life  
 Micro fine depth adjusts in increments of 0.1mm for extreme accuracy in work  
 Finely adjustable side fence for accurate parallel grooving and trenching  
 Anti scratch solid cast base prevents damage to work surface  
 Collet design prevents over tightening of bits
