

PNEUMATIC STANDARD GLUE GUN FEEDER 0002 BY PIZZI

The standard gun has established itself as an industry standard for its durability and suitability for just about any glue work you can think of. The flow of glue is controlled by a hand lever, which allows for better control than with a handheld glue bottle. It accepts the full range of specialized Pizzi nozzles (Nozzle pictured not included), allowing you the flexibility to use it for nearly any application.
