## 16MM SATIN FINISH COMBINATION SPANNER CM16C BY KINCROME

SKU	Option	Part #	Price
38739		CM16C	\$31.95

<b>Model</b>	
Type	Combination Spanner
SKU	38739
Part Number	CM16C
Barcode	9312753400237
Brand	Kincrome
Size	16mm
<b>Technical - Main</b>	
Finish	Satin
Imperial (SAE) / Metric / Torx	Metric
Material	Chrome Vanadium Steel (Cr-V)
Offset (Degrees)	15
<b>Dimensions</b>	
Product Length	277 mm
Product Width	50 mm
Product Height	26 mm
Product Weight (Net Weight)	0.12 kg
<b>Packaging + Shipping</b>	
Shipping Weight (Gross)	0.12 kg

The range of Kincrome Spanners which has undergone exhaustive independent testing, is now 80% stronger than the ASME (American Society of Mechanical Engineers Standard) and 130% stronger than the German DIN standard. The stronger, lighter and greatly enhanced quality of the Kincrome spanner range leaves many name brand competitors in its wake.

Features include a thinner head allowing the spanner to reach tighter areas, a rounder shaft for a more comfortable grip when applying greater torque, a lighter weight, and the shorter length decreases radial movement by up to 20%.

Construction of the range is from forged Chrome Vanadium Steel (Cr-V) hardened, tempered and chrome plated with a slight satin finish for corrosion protection. Increased Molybdenum Manganese and Nickel content provide greater strength and corrosion resistance.
