12MM SATIN FINISH COMBINATION SPANNER CM12C BY KINCROME

SKU	Option	Part #	Price
38743		CM12C	\$27.95

The range of Kincrome Spanners which has undergone exhaustive independent testing, is now 80% stronger than the ASME (American Society of Mechanical Engineers Standard) and 130% stronger than the German DIN standard. The stronger, lighter and greatly enhanced quality of the Kincrome spanner range leaves many name brand competitors in its wake.

Features include a thinner head allowing the spanner to reach tighter areas, a rounder shaft for a more comfortable grip when applying greater torque, a lighter weight, and the shorter length decreases radial movement by up to 20%.

Construction of the range is from forged Chrome Vanadium Steel (Cr-V) hardened, tempered and chrome plated with a slight satin finish for corrosion protection. Increased Molybdenum Manganese and Nickel content provide greater strength and corrosion resistance.

Model	
Type	Combination Spanner
SKU	38743
Part Number	CM12C
Barcode	9312753400190
Brand	Kincrome
Size	12mm
Technical - Main	
Finish	Satin
Imperial (SAE) / Metric / Torx	Metric
Material	Chrome Vanadium Steel (Cr-V)
Offset (Degrees)	15
Dimensions	
Product Length	239 mm
Product Width	50 mm
Product Height	23 mm
Product Weight (Net Weight)	0.07 kg
Packaging + Shipping	
Shipping Weight (Gross)	0.07 kg
