11MM SATIN FINISH COMBINATION SPANNER CM11C BY KINCROME

The range of Kincrome Spanners which has undergone exhaustive independent testing, is now 80% stronger than the ASME (American Society of Mechanical Engineers Standard) and 130% stronger than the German DIN standard. The stronger, lighter and greatly enhanced quality of the Kincrome spanner range leaves many name brand competitors in its wake.

Features include a thinner head allowing the spanner to reach tighter areas, a rounder shaft for a more comfortable grip when applying greater torque, a lighter weight, and the shorter length decreases radial movement by up to 20%.

Construction of the range is from forged Chrome Vanadium Steel (Cr-V) hardened, tempered and chrome plated with a slight satin finish for corrosion protection. Increased Molybdenum Manganese and Nickel content provide greater strength and corrosion resistance.

| SKU | Option | Part # | Price |
|-------|--------|--------|---------|
| 38744 | | CM11C | \$24.95 |

| Model | |
|--------------------------------|------------------------------|
| Type | Combination Spanner |
| SKU | 38744 |
| Part Number | CM11C |
| Barcode | 9312753400183 |
| Brand | Kincrome |
| Size | 11mm |
| Technical - Main | |
| Finish | Satin |
| Imperial (SAE) / Metric / Torx | Metric |
| Material | Chrome Vanadium Steel (Cr-V) |
| Offset (Degrees) | 15 |
| Dimensions | |
| Product Length | 225 mm |
| Product Width | 50 mm |
| Product Height | 23 mm |
| Product Weight (Net Weight) | 0.05 kg |
| Packaging + Shipping | |
| Shipping Weight (Gross) | 0.05 kg |
