

## PLANER BLADE SHARPENING JIG SVH-320 BY TORMEK

SKU	Option	Part #	Price
3964		SVH-320	\$435

Model	
Type	Water Cooled / Wet Stone Sharpener Accessory
SKU	3964
Part Number	SVH-320
Barcode	7392485002123
Brand	Tormek
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

### Features:-

- For Blades of any Length
- Minimum Width of Blade is 1/2-Inch
- The Tool is Guided Precisely and Ground Flat along its Whole Length
- Can be Pre-Set to a Fixed Depth
- Grinding angle is set with superior accuracy

### Product Description:-

Longer blades (like planer / jointer blades) present a unique challenge in sharpening, especially doing it freehand. In plain terms it's increasingly difficult to achieve a consistent depth and angle as the blade you are working on gets longer. And, of course, shipping them out to get sharpened is expensive and inconvenient. We at Tormek developed this planer / jointer blade sharpener to meet this exact need "to sharpen those longer blades with perfect precision. Use it with our Tormek sharpening systems to get the results you want. Included with this well-made jig are a support, a blade holder, and a hex key for precise adjustments up to 1/10 of a millimeter. This allows you to adjust the edge angle and grinding depth to extremely-tool-friendly angles, giving you a sharp edge while also prolonging blade life. It fits your Tormek water cooled sharpening system, and is a must if you have a planer/jointer and longer blades.

*Full Manufacturer Warranty*
