Brand	Carter
Size	400mm (16")
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

38mm (1-1/2") wide by 2.3mm (3/32") thick. Carter Ultra Blue Urethane Tyres provide even greater durability and resistance to damage and allow for optimum blade tracking. These tyres provide superior strength and are generally installed without adhesive bonding being required. Simplified installation procedures permit the saw to be returned to service sooner after installation. All tyres are sold as single tires and prices are per tyre. All Carter tyres have a uniform thickness over their width and will conform to the underlying surface of the wheel.

Single Tyre Only
