SKU	4124
Part Number	JSZ15050
Barcode	9314028002665
Brand	Josco
Packaging + Shipping	
Shipping Weight (Gross)	0.55 kg

Josco Sisal Cutting Buff's are ideal for removing scratches, light cutting back, and general surface preparation before a polishing buff is applied. They have excellent cutting power when combined with a Fastcut Compound. The combination of these two products is powerful enough to remove 240 grit belt marks from steel prior to plating. It can also be very useful in removing heat scale and scratches on stainless steel, plus cutting back on brass and copper.
