## LOOSE LEAF CALICO BUFF 200MM X 50 FOLD - JLL20050 BY JOSCO

SKU	Option	Part #	Price
4147		JLL20050	\$46.4

Model	
Type	Calico Buff
SKU	4147
Part Number	JLL20050
Barcode	9314028002795
Brand	Josco
Packaging + Shipping	
Shipping Weight (Gross)	0.55 kg

Instructions for use:

**Different metals have varying characteristics, and to achieve the best possible results, it is essential that the correct compound and polishing buff are selected for the job.**

Select the correct buff and compound for your job. The Josco Loose Leaf Calico Buff is best suited for high gloss polishing using either SS, SSX or Multishine Compounds. For best results, never use different compounds on any one buff. Keep a separate buff for each compound.

Dress the buff with compound across the face of the rotating wheel for a few seconds. Take care not to apply too much compound as this will overload the buff. It is better to apply a little compound more frequently than to overdress the buff. Bring the work piece into contact with the buff and with light pressure move back and forth across the job.

After polishing remove any residue with hot water and household detergent.
