Shipping Weight (Gross)	1.48 kg

Grabit 2pce Broken Bolt & Damaged Screw Extractor Kit 8420P by Excalibur, Manufactured in USA Grabit 's Patented two-step process makes it easy to extract damaged especially those that have completely hollowed out heads. Grabit is made from high quality steel for use in a screwdriver or a variable, reversible drill on size covers **Features:-**

- Two piece kit (#1 & #2) of industrial standard extractors of damaged screws and bolts.
- Each piece is a drill & extractor in one tool.
- Double ended tools, left handed "clean-up" drill one end, extractor the other end.
- Each drill end is self centering, no walking or wandering.
- Works on jagged and uneven rough breaks. No centre punching or grinding required.
- Each extractor end is serrated, resulting in greater torque for hard to remove bolts and screws.
- Grabit Pro removes up to grade 8 fasteners from wood, plastic or metal.
- Use in reverse only with variable speed reversing drill, either directly chucked or compatible with "quick-connect" chuck systems.

Grabit # 1 Screws: # 4 - 7 Bolts: # 10 (5mm) Grabit # 2 Screws: # 8 - 10 Bolts: 1/4-in. (6mm)
