

DUST COLLECTOR 3HP 2 X FILTER (NEEDLEFELT TOP + PLASTIC BOTTOM BAG) OT-DC-2200 BY OLTRE

Available in 240V or 415V.

The OT-DC-2200 (DC2200) series of Dust Collectors (previously known as FM300S Dust Collector) is a type of air filtration system designed to remove dust, smoke, and other airborne particles from industrial and commercial environments. It is typically used in woodworking, metalworking, and other processes that produce dust or fumes. The OT-DC-2200 is designed to provide efficient and effective air filtration, improving air quality in the workplace and reducing the risk of fire and other hazards associated with dust buildup.

The OT-DC-2200 is specifically designed for use with woodworking tools and machinery.

Features of the OT-DC-2200 Dust Collector include a compact design, high-performance filtration media, adjustable fan speed, and a quiet operation.
