CENTROTEC 3MM WOOD SPIRAL DRILL BIT - 492512 BY FESTOOL

Features

The 3 mm Spiral Drill Bit with Centrotec Shank provides a precise, compact, and durable solution for drilling all sorts of wood, glued solid wood, MDF and acrylic glass. Precision ground HSS steel stays sharp longer for precise hole drilling and a long service life. Centrotec shank can also be used with all standard three jaw chucks for no slip performance. The Festool Centrotec System is designed to deliver a better transfer of force between the drill and the bit, with no chance for bit slippage or marring of the drill bit. The Centrotec Chuck design enables reduction in weight, and reduces the overall length/clearance. The quick change Centrotec system delivers a faster, more efficient means of changing bits and driver tips than any keyless chuck system, and virtually eliminates run out.

SKU	Option	Part #	Price
43325		492512	\$27.5

Model	
Type	Drill Bit
SKU	43325
Part Number	492512
