Standard Inclusions	Anti Static Rotating Adapter
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

Systems get it done. Perfect down to the details.

The connecting sleeve with rotating adapter connects a D27 suction hose quickly and securely with a Festool mobile dust extractor. The antistatic function prevents static charging and minimises static discharge to the user. This enables work to be carried out efficiently, cleanly and systematically and reduces hazards to health.

Rotating adapter prevents the hose from twisting antistatic

hose sleeve for connection to the inlet nozzle on the mobile dust extractor, outside dia. 58 mm

Main applications

Spare part for suction hoses

For producing suction hoses ordered by length

Specification

Hose Diameter (mm): 27mm
