Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

The smallest of the Clifton range, the No 3 is a compact smoother, designed for making the final passes to produce a flawless surface. These planes are ready to use from the box and do not need hours of flattening and fettling to make them fit for use

The No 3 comes with a thick, cryogenic iron made from Sheffield carbon steel, with a two-piece chipbreaker that effectively laminates the iron and doubles its thickness to over 1/4". The detachable cap of the chipbreaker is pre-sharpened and both chipbreaker and lever cap are polished to ensure a smooth, unimpeded flow of shavings.

The Clifton NO 3 is an excellent size smoothing plane for small work, or for people with smaller hands.

The Clifton No 3 weighs 1.7 Kilos
