A highly volatile hydrocarbon solvent that performs well in situations requiring a solvent that evaporates quickly with no residue. Fast drying. A low flash point solvent that evaporates quickly. A weak solvent that is unlikely to affect the surface of most materials. Versatility Recosol R55 can be included in any formulation where speed of evaporation is required and will combine well with other.

Typical Uses

Suitable for use as a low residue contact cleaner. Suitable for surface preparation prior to painting.

Features:

- Colourless liquid with a paraffinic, sweet odour
- Low flash point solvent with a high evaporation rate
- Can be used in formulations requiring speed of evaporation and combines well with organic compounds
- Delivers a high solvency of greases and oils
- Flammable hydrocarbon solvent primarily in metal cleaning (also known as R55)
