Part Number	W9301500
Brand	Hoffman
Packaging + Shipping	
Shipping Weight (Gross)	1.35 kg

W3

### Suits:-

3/4" (19mm) and thicker stock

The Hoffmann Dovetail Joining System is used in woodworking, furniture manufacturing, window and door production, architectural millwork designs, store fixtures, custom and production picture framing shops, pre-fab housing and much more, in shops and plants around the globe. To best suit an ever expanding range of joining application, a total of five different Hoffmann Dovetail Keys and corresponding Dovetail Router Bit sizes are offered, designated as W-0, W-1, W-2, W-3 and W-4. The 'W' designations refer to the cross-sections of the Keys (the size of the "bowtie"), and Keys in each size are available in a variety of different lengths. The cross-section dimensions of W-3 Hoffmann Dovetail Keys are approx. 1/2" wide and 3/8" tall (13mm by 9.5mm). W-3 Dovetail Keys are available in lengths from 1/2" up to 4" (12.7mm to 100mm) - see chart below. Hoffmann Dovetail Keys, size W-3, are a popular size for a wide range of woodworking applications including miter joints, butt joints, compound miter joints and end-to-end joints. The W-3 Dovetail Keys are larger in both width and height compared to W-2 Keys, and are therefore exerting more clamping pressure and holding strength in all types of miter and butt joints. Typical uses include cabinet and furniture frames, straight and curved handrail joints, heavy column bases, bar and chair rails, wooden ceiling systems,

outdoor furniture as well as institutional and commercial  
mitered cabinet doors. In addition, heavy wood components  
with large cross section, such as casket lids and casket side  
panels, sauna and steam-room components, post and beam  
construction etc. often require the use of W-3 Keys.

**Applications:-**

mitered doors with heavy glass or mirror panels  
floor-to-ceiling type doors for laboratories and schools are  
often joined with W-3 Dovetail Keys as well.

Part #	Length (inches)	Length (mm)
W9301200	1/2"	12.7mm
W9301500	5/8"	15.8mm
W9301700	11/16"	17.5mm
