Product Weight (Net Weight)	8.96 kg
Warranty	
Warranty	3 Years
Packaging + Shipping	
Shipping Length	260 mm
Shipping Width	570 mm
Shipping Height	570 mm
Shipping Weight (Gross)	10.48 kg

The 500mm (20") Heavy Duty Pedestal Fan is packed with features to assist and help you get the job done comfortably. Features such as an energy efficient induction motor, 3 speed switch, high velocity air flow, anti-trip base, heavy duty constructed adjustable height pedestal & safety grills, 5 aluminium blade construction, oscillation and tilt function. The 5 aluminium blade construction is different to what is conventionally seen in the market delivering up to 5% more air velocity to most standard 3 blade fans available. With a cool air velocity of 115m³ per minute this unit is perfectly suited to ventilating small to medium areas inside. Featuring an anti-trip base that provides a stable platform for the fan and also means no bulky legs sticking out causing a trip hazard in your work area. The fan requires minimal assembly so you can ventilate the office, shed, workshop or jobsite quickly once installed onto your wall or fixture. With standard oscillation and tilt functions you can position the fans air flow almost anywhere quickly and easily to ensure ventilation is provided exactly where your need it. The entire KINCROME fan range complies to all safety and standards requirements including testing conducted to tropical class T clause. KINCROME Heavy Duty fans are built tough and will last the distance when using them out in the field.

Features

Heavy Duty Fan

3 Speed Switch

5 Aluminium Blades

111W Induction Motor

115m³/min Air Delivery

Adjustable Height 780-1110mm (centre of blade to floor)
