DESCRIPTION

Kincrome is proud to announce the release of the Super Low Profile Karbon Creeper. The Karbon Creeper boasts a new design style which not only looks fantastic, is much more comfortable than the any standard garage creeper ever was! The super low profile design allows you to get under a car with ease, delivering additional clearance when working on lower body vehicles & extra room when working on higher 4x4 style vehicles. The unit comes equipped with the "Karbon" wrapped foam back and headrest rest and 6 PU fully sealed ball bearing castors, which help you glide around the workshop. The unit also comes equipped with TWO "Storage" cavities, allowing you to store tools, nuts and bolts as well as spare parts, while performing maintenance on a vehicle. It is manufactured from a single piece of Polyethylene Plastic, which is extremely strong, allowing the impressive 130kg max weight capacity and is easy to clean!

FEATURES

- Ribbed underside for strength and durability
