Shipping Weight (Gross)	1.48 kg

Features:

Especially developed robust head geometry with optimum 4 x 90 ° symmetry of carbide tip: Reduces jamming up on hitting reinforcing steel.

Centering point with 130 ° point angle: Easy spot drilling with pinpoint accuracy and ensures optimum guidance during drilling.

Robust secondary cutter with dynamic curved cutting edge: Supports the primary cutter for faster drilling.

Shorter spiral windings: This allows for faster transport of drilling dust from the head to the flute = Less wear and heat build-up at the tip.

Unique carbide tip: With more carbide on all diameters and extra carbide on $\bar{A}_1 > 32\text{mm}$.

Wear mark on both sides of primary cutter: Guarantees diameter accuracy (i.e. for anchor fittings) and acts as a life time indicator in warranty cases.

Deep flute shoulders: High volume dust removal for optimum drilling

Less wear and heat build-up.

Low vibration drilling performance: Comfortable drilling ensures less stress for man and machine.

Special surface treatment: Shot blasting provides a smooth surface and densifies the surface structure and makes the bit more wear resistant.

PGM Conformity: Guarantees precise holes for anchor fitting over the entire life time of the drill bit.
