108mm x 51mm magnification lenses for welding helmets. Suits: Flip-front helmets, Weldclass Promax series helmets & various other brands/models. If you want a closer look at the job... or if your eyesight is not as good as used to be, these little lenses are downright handy! Available in 1.5x, 2.0x, 2.5x diopter (magnification strength).

Features:-

2.5x Diopter

For magnified view of the work area

Improves clarity of vision & detail

Applications:-

Size 108 x 51mm

Suitable for standard flip front helmets & various auto-darkening helmets

Suits Weldclass (all models)

Options:-

1.5.0x 108mm x 51mm Magnification Lens P7-ML15

2.0x 108mm x 51mm Magnification Lens P7-ML20

2.5x 108mm x 51mm Magnification Lens P7-ML25

Q&A:-

Do magnification lenses come in sizes larger than 108x51mm? A: Currently 108x51mm is the only size available. Due to high tooling costs, these are not produced in other sizes. On Weldclass & some other helmets, you can adjust the mag lens position so it is in your direct line of sight.
