CR39 style clear lenses for high resistance to spatter, heat & scratching. 108x51mm, fits standard flip-front welding helmets. (Use as external lens only. Does not provide impact protection).

Features:-

CR39 style material: High resistance to spatter, heat and scratching

Longer service life

Packed in paper envelope for fast & easy lens replacement

Compliant to Australian standards AS1388.1

Applications:-

Size 108 x 51mm - suits most standard flip-front helmets

Use as front cover lens (in front of flip-up mechanism & in front of shaded welding lens)

Operator Info:-

This lens does Not provide impact resistance and should Not be used as internal cover lens (closest to the operator's face). The Weldclass 7-CLPC impact-resistant lens should be used in this application.
