Sanding during drywalling generates large volumes of sanding dust. It is therefore essential that you use a dust extractor suitable for this work. With the AutoClean special dust extractor, Festool offers the perfect dust extractor "featuring automatic main filter cleaning and a kink-free suction hose" for the new PLANEX easy long-reach sander. Because keeping the workplace clean is important, both to protect your health and to enable smooth working processes with precise results. Test report: EVA Respirable Crystalline Silica and Total Respirable Dust Exposures Report Test report: ESP Airborne Occupational Exposure Report

Main applications

Sanding walls and ceilings

Sanding plasterboard and dry wall filler

For removal of carpet residue, coats of paint, coverings, adhesives, loose plaster and other coatings

We take care of your success

Festool boasts a long tradition of superior service as well as superior tools. Our 36-month cost protection guarantee means that your repairs and wear parts are free of charge.

Powerful duo. For quick, clean, healthy sanding

The AutoClean special extractor is precisely designed to work with the PLANEX easy: The extractor features automatic filter cleaning, a robust, kink-free hose and a closing slide for more intensive main filter cleaning.

Everything is easier and lighter with a system

Saving time also saves money. Tools and extractor systems are therefore optimally designed to work together. The
