Functions

Makes it possible to create precisely guided plunge cuts.
 Equipped with a depth stop for defined plunge cuts and an extractor connector for removing dust when sawing.
 Includes an adapter for fitting accessories without tools.
 Can be used with offset saw blades.

Main Applications

Precision placement on scribe marks
 Virtually splinter-free sawing of delicate surfaces
 Perpendicular plunge cuts
 Greater accuracy with the positioning aid: ideal for cutouts in delicate materials
 An extractor can be attached when carrying out sawing work indoors that generates large amounts of dust
