Powered by M12 REDLITHIUM Battery Technology, MILWAUKEE M12 Heated TOUGHSHELL Jackets use carbon fiber heating elements to create and distribute heat to the chest, back, and front hand pockets. A one-touch LED controller allows users to select from three heat settings, delivering ideal heat for any environment. For use in abrasive environments, TOUGHSHELL Stretch Polyester delivers longer life than previous softshell jackets, and provides wind and water resistance to survive the elements.

Up to (8) hours of run-time with M12™ REDLITHIUM™ 2.0

Compact Battery Pack

Washer and dryer safe

High loft insulation to trap heat

One-touch LED controller with (3) heat settings per heat zone

Heating Zones: Chest, Back and Pockets
