Description: PTA Impact bits are built tough, featuring an oversized torsion zone to reduce breakage and extend lifetime. Finished in black phosphate for additional corrosion protection, PTA Impact bits also provide a precision fit to help prevent stripping and reduce cam-out, the result is superior fastener adhesion. It all adds up to a bit that's better by design, delivering on the promise of ultimate bit life.

Features: **• Torsion Control zone** - Absorbs extreme torque loads to optimise control whilst preventing fastener cam-out, extending the lifetime of your impact bit.

• Magnetic Precision Tip - CNC machined tips offer a precise fit to prevent stripping and fastener cam-out, magnetised for ultimate control

• Impact Performance - PTA is uniquely designed for extreme impact and torque applications. This accessory is manufactured from S2 steel, machined and heat treated

• Magnetic C-Clip Coupler - Impact rated for high torque applications, driver bit is retained with a magnet and a C-Clip.
