Product Width	201 mm
Product Height	205 mm
Product Weight (Net Weight)	15.4 kg
Packaging + Shipping	
Shipping Weight (Gross)	15.402 kg
Shipping Notes	This product is classified as 'Heavy / Oversized' and generally does not qualify for FREE SHIPPING.

The NEW Kincrome Vehicle Positioning Jacks make manoeuvring vehicles around the workshop quick, safe and easy!

The NEW Ratcheting design is superior to hydraulic systems as it is significantly more durable, does not require annual hydraulic fluid replacement, does not blow seals, will not leak and can be stored on their side without the risk of air-lock. They are rated to handle up to 680kg per wheel making them suitable for use with most cars, 4WD's and some light trucks. They are designed to fit tyres up to 330mm in width and have a foot-operated ratcheting mechanism that squeezes the roller-equipped support legs together to lift the tyre off the ground.

The 360 ° swivel castors then allow you to move your vehicle in any direction with ease!

Features:

- Mechanical Ratcheting
- 3-Section Steel Frame Construction
- Plastic Rollers
- 4" Nylon Castors (2 x Lockable)

Specifications:

- Rated Capacity: 684kg
- Wheel Width Capacity: 330mm (13")
- Adjusting Range: 285 - 660mm
