The powerful AGC 18 cordless angle grinder is dust-resistant and long-lasting thanks to the enclosed brushless EC-TEC motor and protected electronics. The continuously adjustable speed of 4500 to 8500 rpm ensures that cutting and grinding is tailored to the material. The AGC 18 is logically designed for optimum ergonomics during cutting work. For especially smooth operation and fewer vibrations, the motor and housing can be disconnected. **Main applications:-**
Cutting the toughest materials (metal, stone and concrete materials)
Easy grinding and roughing work (e.g. deburring metal)
