

MIXING DRILL FOR UP TO 40L WITH LEFT STIRRING ROD MX1000 575809 BY FESTOOL

SKU	Option	Part #	Price
5010170		575809	\$625

Model	
Type	Mixing Drill
SKU	5010170
Part Number	575809
Barcode	4014549343425
Brand	Festool
Technical - Main	
Power Source	240V 50Hz Single Phase
Collar Diameter	57mm
Mixing Volume	Up to 40L
Motor Speed - No Load	360 - 630 min ⁻¹
Paddle Diameter	120mm
Dimensions	
Product Weight (Net Weight)	4.6 kg
Features	
Standard Inclusions	1 x Tool Manual
Workshop (Site) Info	
Power Supply Cord	0 mm
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

Thick clouds of dust when stirring are a thing of the past. With the MX stirrers along with the MX dust extraction, which is simply clipped onto the edge of the bucket, you can mix any material in future almost without any dust whatsoever. This not only benefits your lungs, but your back as well. Thanks to the flexible ErgoFix height adjustment, you will work upright and spare your back in the process. The powerful motors combined with the sturdy transmission ensure maximum traction and a long service life. If you take a break, the non-slip rubber corners hold the stirrer on the wall. And when the work is done, you'll not only find that the stirrers are quickly and easily cleaned, ready for transport but your construction site is clean, too.

Main applications:

Universal 1-speed stirrer for mixing applications up to 40 l. Ideal for mixing compounds, tile adhesive, mortar, gypsum and larger quantities of liquid materials.

Effective extraction as soon as material is poured in. The MX extraction system is simply clamped onto the edge of the mixing bucket so that the dust disappears into the extractor from the moment the mixing material is poured in. You no longer have to battle with clouds of dust while stirring. And after your work is done, the construction site is as clean as before, saving you valuable time.

Simply adapt the stirrer to your height using the patented ErgoFix height adjustment Mix in a natural upright working position for relaxed and effortless working.

Extremely sturdy design

From heavy contamination to hard impacts or collisions, the MX stirrers can withstand the toughest of conditions thanks to the drive with its long service life, the solid tubular steel frame, the switch guard and the rubber edges.

Strong and durable

The powerful 1020 W motor with power electronics ensures constant power when mixing. The combination with the high-torque transmission ensures a long service life even with the toughest continuous use.

Controlled power thanks to the variable speed trigger and speed control

The easy-to-use variable speed trigger is fitted with a rubber cap to protect it from dirt. The tool delivers controlled power and increases speed gradually to prevent material from spraying out during start-up. The separate speed adjusting wheel can be used to set the appropriate speed level for every mixing application. and increases speed gradually to prevent material from spraying out during start-up.

Lightning-quick changes without using tools

The FastFix quick-change system allows the machine and stirrer basket to be separated without the use of tools and enables rapid replacement of the stirrer basket, as well as simple cleaning and space-saving transportation.

All within easy reach

Extremely ergonomic parallel handles ensure easy and comfortable machine guidance. Thanks to the rubber coating, you always have a firm grip on the stirrer.

Slip-proof shock absorber

Hard-wearing rubber corners provide effective protection against damage and prevent the machine from slipping.

One for all

The ErgoFix adapter has a classic M14 tool holder so that all current stirrer baskets can be used. In addition, it is designed for the entire service life of the stirrer thanks to its special coating.

MMC Digital Electronics

Processor controlled "Multi Material Control" power electronics provide adjustable and constant speeds as well as temperature monitoring for work on all types of material.

FastFix

Makes changing accessories or consumables for routing, sawing, planing, sanding, drilling and screwdriving tools easier.
