Functions

Efficient storage and transport container
Systainer³ combines workshop and construction site.
Ideal for carpenters and joiners: The wooden insert provides order, clear organisation and easy transport for the most popular hand tools. Thanks to the established T-LOC operating element, it can be closed, opened and connected in a single movement. Thanks to perfect integration in the bott vario3 vehicle equipment, you can now take the familiar arrangement and the simple handling that are you used to from the Systainer system with you in your vehicle as well. The required tool can be found quickly since all hand tools are clearly displayed for the joiner/carpenter

With inlay for hand tools

Items included without tools

Main applications

Can be connected to one another and to different generations

Compatible with transport systems and mobile dust extractors

Enable organisation, an overview and professional appearance
