Barcode	4014549377574
Brand	Festool
Features	
Standard Inclusions	Dust Extraction Attachment for MX Stirrers
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

Dust-free work begins with stirring. For all MX stirrers and CT/CTL/CTM mobile dust extractors.

No exposure to dust when filling and mixing powder-like materials – the MX dust extraction is simply clipped onto the edge of the bucket and ensures that dust ends up in the extractor and not in your lungs. For a clean working environment without reworking.

For dust-free work with the stirrers

Effective extraction as soon as material is poured in

The MX extraction system is simply clamped onto the edge of the mixing bucket so that the dust disappears into the extractor from the moment the mixing material is poured in.

You no longer have to battle with clouds of dust while stirring.

Specifications:-

Hose Diameter (mm): 36 / 27 mm
