Shipping Weight (Gross)	1.48 kg

DESCRIPTION

Get real time live data & freeze frame data from your vehicle on the new Kinchrome OBD2 scan tool. Analyze real time data like rpm, speed, throttle application and fuel consumption. Scan the vehicles OBD system for fault or trouble codes and the results show on the full colour 61mm TFT Colour display. Graph live engine data on the screen to detect intermittent faults and issues, with the added feature of LED's & speaker to help catch problems on a drive cycle.

Check your vehicle is OBD compatible before purchasing this product, some vehicles run a different system see below for more details for details.

PLEASE NOTE: When downloading the OBD2 software, your browser may detect a threat in the file. Please be aware that this is a false positive and will be resolved soon.

FEATURES

- Large colour screen
- Real time live data and freeze frame data from intermittent faults
- Read and clear stored and pending codes, turns off check engine light
