| Brand |  |  |  |
| Technical - Main | 1.5 HP (1100W) |  |  |
| Motor Power (Input) |  |  |  |
| Packaging + Shipping | 1.48 kg |  |  |
| Shipping Weight (Gross) |  |  |  |

ToolsDesigned for shaping the edges of longitudinal beams and crossbeams and modelling coffered ceilings. Factoryfitted with straight blades for bevel-edging, ti also permits rounding or moulding of shapes by using the moulding blades included with the equipment or the optional blades set. The width of the straight or moulded profile obtained can be set between 0 and 40 mm . The guide on which the piece to be shaped rests can be moved with respect to the cutter, which means that different profiles can be made on an edge, according to the zone of the blade on which work is being done. There are two handles, one parallel to the main grip and at the same level, permitting comfortable work on longitudinal beams and vertical parts, and a top knob with two optional positions for work on horizontal surfaces, thus in both cases allowing a perfectly comfortable and secure twohanded grip on the machine. The machine is equipped with a smooth electronic starting system and safety connection cutoff switch to avoid undesired start-up. It is also equipped with a dust collection nozzle.

## Specifications

Double insulation

| Input power: | 1100 W |
| :--- | :--- |
| Planing width: | 40 mm |

Max. blades pitch diameter: 49 mm
No-load speed:
$23.000 / m i n$
Optional Accessories

Monday - Friday 7am-5pm + Sat 8am-4pm
