### FEATURES

The Multitool is a renowned, Australian designed belt grinding attachment which can be used on most bench grinders. The technology replaces the grinding wheel and converts a traditional grinder into a sophisticated work station ideal for sanding, grinding, sharpening, shaping, polishing and refinishing.

**EFFICIENCY** - Superior performance and a user friendly, toolless belt change in under 5 seconds.

**VERSATILITY** - Grinding, sanding or polishing in 4 positions on rubber contact wheel, platen, disc or free strapping. The unit can also be swivelled vertically or any position in between.

**ACCURATE TRACKING** - The running position of the belt is simple to adjust and it stays there, allowing for finishing into sharp corners.

**QUALITY CONSTRUCTION** - Robust, maintenance free with sealed ball bearings, hardened and ground essential components and zinc plating.

**3 YEAR WARRANTY** - Against faulty materials and workmanship, even when used commercially.
