Our BOLT Earmuffs are designed for adjustable, comfortable wear. These cap-mounted earmuffs provide an adjustable fit thanks to the centre-mount design. The earmuffs also allow for balanced wear with a 360° rotational arm that can pivot to multiple storage positions when not in use. The comfortable, pressure-reducing cushion helps avoid pressure and discomfort when wearing the earmuffs for extended periods. These earmuffs have the indicated NRR to protect you against hazardous noise and are SCL80 class 5 rated. Our earmuffs are a part of the BOLT System that allows users to secure accessories simultaneously. Certified for use with MILWAUKEE® BOLT Safety Helmets and Hard Hats.

Features

SCL80 rating: class 5 (26dB NRR)

Vertical adjustment and 360 degrees cup rotation for user's maximum comfort and attenuation.

Mounts into both middle and rear accessory slots.

Extra comfortable foam in the ear muff's cushions for maximum comfort and protection.

Compatible with both BOLT hard hats and helmets.
