Knife 130-NZn-1/ZL- Rybička

A legend among pocket folding knives is the Rybička knife, which probably every one of us owned.

The first knife in the shape of a fish was created a hundred years ago, and its wooden handles were gradually replaced by metal handles, and the current handles are cast from zinc alloy.

The original carbon blade was replaced by a blade made of high-quality stainless steel type 420 with a hardness of 52-55 HRC.

Packed in a paper box with a Euro hinge.
