 Do not use the tool if you are wearing a hearing aid or any other
 hearing device.

About this item:

Use with Dymaxion hex, SDS Plus or SDS Max core bit mandrels.

Ideal for use in brick and block - not suitable for use in concrete.

When drilling deep holes drill in stages and remove the plug every 50mm.

Use with drill on hammer action - be patient and allow the hammer action time to work.

Avoid brick ties as they may damage the tungsten carbide teeth and will void the product warranty.

Heavy duty alloy steel body with vacuum brazed tungsten carbide teeth.
