Fuller Trade Gap Filler is a general purpose acrylic based gap filler. Suitable for most building substrates, it's easy to apply and cleans up with water.

Key Benefits

- Remains flexible
- Easy to apply acrylic sealant
- Tools and finishes perfectly
- Paintable
- Interior/exterior use
- Resists slump and sag
- No mess - water clean up

Uses

- Patching gaps around skirting boards, architraves, cornices, ceramic tiles (not in shower)
- Window frames prior to painting inside or outside
- General purpose fit out finishing

Note: Protect from water until sufficiently cured

Compatible Substrates

- Brick
- Concrete
- Masonry
- Fibre cement sheeting
- Plasterboard
- Aluminium
- Ceramic
- Timber**
- Particleboard
- Polystyrene

** not suitable for weatherboard
