Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

The ultimate complement to the Festool MFT system, the Clamping Elements secure your workpiece for precision routing, sanding, cutting, or just about any other application. Cam action levers and rubber padded clamp surfaces enable easy locking and quick release for a secure grip on your material, regardless of shape. The low profile design provides secure lateral clamping force on the material edges utilizing the grid hole pattern of the MFT, freeing your work surface from obstruction. Designed for a perfect fit with the 20 mm holes of the Festool MFT Multifunction Table.
