4 Row Brass Wire Brush BLH4RB by Josco The Josco 4 Row Hand Brush Long Handle is available in both a short handle and long handle variety. To find which is more suitable for your project, consider how accessible your work piece is, and if it requires a longer brush extension (handle) than normal. Hand brushes are a very versatile tool. They are ideal for deburring, rust and paint removal, cleaning, edge blending and surface preparation. This particular hand brush is constructed with a non-sparking Brass Wire, ideal for surface finishing on copper and brass **Features:-**

Long Wood Handle

FSC certified timber handle

Handle drilled for easy storage

Applications:-

Suitable for deburring, rust and paint removal, cleaning, blending and surface preparation.

There are plenty more hand brushes within the Josco range.

They come in either a 3, 4 or 5 row variety, and a converged face style is available also.
