SKU	Option	Part #	Price
56485		DSMT50-350	\$67.8

SAFETY PRECAUTIONS

ALWAYS Read and follow safety instructions supplied in your owner's manual before operating any power tool.

Wear eye and hearing protection.

Ensure bystanders wear suitable protective equipment.

Disconnect tool from power (or remove battery) prior to changing or adjusting blade.

Mount blade securely ensuring correct rotation direction.

Ensure blade diameter and bore are the correct size for the tool.

Ensure material is securely clamped before cutting.

Check that blade guards and safety features on saw are fitted and working correctly.

Ensure machine does not exceed the maximum RPM.

Allow saw to reach full speed before commencing cutting.

NEVER Wear loose clothing or jewellery. Keep clothing, body and hair clear of spinning blade.

Cut materials with this blade that are not listed on the packaging.

Packaging + Shipping	
Shipping Weight (Gross)	1.28 kg

Cranked (angled) flat chisels are ideal for removing tiles and similar products.

The angled chisel head reduces operator fatigue by allowing a more ergonomic working position.

Constructed from hard wearing tool steel for a long service life.

Easily resharpened.

SDS Max - Suits all Rotary Hammers fitted with an SDS Max chuck.
