

## 310MM (12") COMBINATION PLANER & THICKNESSER WITH SPIRAL HEAD CUTTER BLOCK 240V OT-PT1201A BY OLTRE

Premium economy machine ideal for home workshops and education environments and small workshops. Oltre means 'Beyond' in Italian and this machine is certainly beyond expectations! Very solidly built with beautifully ground cast iron tables (Planer 1300 x 310mm, Thicknesser 545mm x 308mm) it is more than capable of milling rough sawn timber into a Square all Round board ready for that next project. Featuring a **4HP 240V (15amp) motor** and 56, 15mm x 15mm x 2.5mm (150mm radius), carbide knives in its Helical Head / Spiral Cutter Block this machine will produce a perfect tear-out free finish in the most difficult of Australian Hardwoods. The tables lift easily in one piece for a 10 second change into Thicknesser mode with a capacity of 225mm of depth with a 308 width. It also features a Siko style depth of cut gauge. The roller feed is 5.5m/min. This is a quality machine for the Home Hobbyist or Small workshop.

### Features

Spiral Head Cutter Block for Premium performance with a quieter cut.
