Solid Colour Laser Fusion Edging Alabaster / Alpin Weiss 23 x 1.2mm STMDf2060 by Rehau,

Manufactured in Germany We stock a range of Laser Fusion Edging (refer options) with a huge range also available ex Germany (we can stock to your order – Board Matches Guide available here). Available in 200m Roll sizes or cut lengths (refer our Edging Solution Services). **Please be aware that all non stocked colours of Laser Fusion Edging have a minimum 7 week production time in Germany + 4.5 week shipping time (airfreight can be co-ordinated at an additional cost)...please keep these lead time in mind when preparing your job / colour matching** REHAU LaserEdge™ is an innovative adhesive-free laser edging technology. This new, two-layer edgeband, offered in proprietary PP, ABS or PMMA polymer formulations, replaces commonly used edging solutions for all machine technologies currently on the market. LaserEdge is applied using a highly efficient laser that melts a color-matched functional layer on the reverse side of the edgeband and welds it to the carrier board.

Features:-

- Permanent invisible seam thanks to a pure polymer, adhesive-free solution
- Exact color match of the functional and decorative layer
- Functional layer matched to the hardness of the decorative layer – no rubbing down of the seam in daily use
- Absolute freedom of color and decorative design choice – all product ranges can be used for laser processing

23 Exhibition Drive, Malaga Western Australia

Monday - Friday 7am-5pm + Sat 8am-4pm

hello@beyondtools.com

Permanent and functional invisible seam
Increased resistance of the boards to heat and moisture
Increased process reliability
Saves process steps and resources
Minimized maintenance work and reduced set-up times
Matching of the edgeband material/primer/adhesive no longer necessary
Designer Colours / Finishes Available:-
Subtle or extravagant: Attractive solid colors
Classic and elegant: Versatile wood and stone decorative designs
Cool and timeless: Metal effect surfaces with the Magic Metallic product range
Transparent and modern: Innovative glass interpretations with Visions
Impressive depth effect: Three-dimensional surfaces with Magic 3D
Distinctive structures and lacquer effects: Impressions surface finishing for a unique feel
