Shipping Weight (Gross)	1.1 kg

Precision engineered, to deliver a tough, reliable and effective high quality product.

This innovative tool, combines a scraper with a broom, to produce the Hudsons Scraper Broom. Now when sweeping, any stuck-on debris can easily be removed, by simply flipping the broom head over to use the quality scraper. Plus, the handle is strong hard wood timber and sustainably sourced. Designed by a tradie, for the tradies!

It has a stainless-steel blade embedded into the front face of the broom head, which allows the user to both sweep and scrape all in the same forward motion. The Patented integration between the broom head and the blade, allows the blade to run the full length of the head, whilst safely containing the edges of the blade.

Australian made & owned.

The Hudsons Scraper Broom is Australian made, it was designed in Australia and is proud to exhibit the Australian made and owned logo.

Over 20 years of construction experience has gone into the design and functionality of the scraper broom. It's a quality product, designed for tradesmen all over the world.
