Type	Blade
SKU	8001489
Part Number	575409
Barcode	4014549309063
Brand	Festool
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

For ISC 240 EB.

Main applications:-

For cutting PUR (polyurethane hard foam) and polystyrene insulating boards as well as hard rock wool and glass wool up to 240 mm

Not suitable for pressure resistant wood fibre insulating materials.

Ideal for PUR insulating materials

The cross-set saw blade cuts PUR insulating materials, polystyrene and hard rock wool and glass wool up to a thickness of 240 mm.

Work adapted to the material

The cutting sets are easy to replace without the need for tools thanks to the quick-change system. Cross-set cutting set for PUR insulating materials, polystyrene and hard rock wool and glass wool. Serrated cutting set for flexible mineral fibre and natur

Clean and healthy

When cutting insulating materials that produce dust, a mobile dust extractor can be connected via the extraction adapter.

For a dust-free and healthy working environment.

For cutting PUR (polyurethane hard foam) and polystyrene insulating boards as well as hard rock wool and glass wool up to 240 mm

Not suitable for pressure-resistant wood fibre insulating materials
