Packaging + Shipping	
Shipping Weight (Gross)	0.0 kg

SMX-20 PLUS is a universal timber flooring adhesive based upon SMX® hybrid polymers. Suitable for indoor bonding of engineered boards, ready to use timber and solid wood. SMX-20 PLUS contains no water or solvents, minimising the risk of deforming the parquet to a minimum. Once fully cured (approx. 24 hrs) an elastic and non-shrinkable adhesive layer is formed, which is resistant to moisture and heat

- Features:-**
- Fast curing
  - Walk on after 8 hr, sand after 24 hrs
  - Ready to use, no mixing required
  - Remains permanently elastic
  - Free of isocyanates, solvents & water

**Applications:-**

Suitable for use on porous and non-porous substrates such as mosaic, anhydrite, concrete, screeds, wood, chipboard, existing ceramic tiles, including floors with under floor heating.

**Coverage:-**

1000 - 1200 g per m<sup>2</sup> by use of the SOUDAL - notched trowel

- Technical Data:-**
