

LOCK MORTISE JIG KIT OT-LMJ BY OLTRE

This Mortise Jig Kit from Oltre is perfect for DIY enthusiasts or professionals looking to save time. Compatible with both electric drills and routers, it is quick to install and simple to operate. Precision cuts up to 100mm deep are made easy, ensuring a perfect fit for door locks and faceplates.

Features

- Fast and accurate for doors from 25mm-100mm thick
- Easy Set Up and Alignment
- Clamp the jig to your door and align it to ensure the mortise cut is in the centre of the door
- Clamp can also be used to cut out the lock's faceplate - the jig is supplied with a protective cap to allow this to be done without marking the door
- Robust jig increases accuracy and speed of mortise cutting
- Horizontal & Vertical Depth Stops
- Easily lock the length and depth of cut to ensure there is no damage to the door
- Suitable For Most Door Materials
- Use on wood / timber , plank and solid wood doors, hotel doors, security doors, fire doors and modifying door locks etc.
- Bearing base slide adjustment
- High Speed Steel Carbide Tipped Cutters
- Supplied with 18mm, 22mm and 24mm cutters to accommodate the most widely used lock widths
- Other sizes available as Optional Accessories
- Compatible with Most Power Drills
- Use with a 13mm chuck at a speed of between 2,000 and 3,000RPM
